

5 things you should consider before INVESTING IN A SOFA ...

1. SIZE *bring in your measurements ...* a sofa should create balance in a room. It is extremely important to get the proportions right otherwise a room can easily look overcrowded or under filled. Using your house plans or measurements we can offer you expert advice on different options and layouts which would suit your space/s and discuss any restrictions or preferences you may have.

2. DESIGN *what features do you prefer? ...* the list of alterations available to you is extensive and our experienced sales team can help you by offering different options to suit your individual needs. Select the design features which are most suitable to you from a huge selection of designs. For example you could choose to add a chaise to your modular, remove an arm and have an open end, or raise the back cushions a little higher.

3. LAYOUT *who + how will you be using the sofa? ...* what are your usual seating habits? Do you like to sit, lie down or have your feet up? When considering the size of your sofa also keep in mind seating for everyone in your home. If you regularly entertain or have a large family you may also wish to consider ottomans and ottoman sofa beds (bed-in-a-box) to help give you more seating and sleeping options.

4. STYLE *of cushions ...* you can choose soft, medium or firm seat cushions. Dunlop Enduro foam seat cushions come with a Lifetime Guarantee.

of fabric ... your fabric choice adds that extra touch of personality to the room. You can choose to add vibrant colour, texture, and patterns to your room or go for a more understated look using the modern palette of greys and browns. * If you know that your sofa is going to be subjected to a significant amount of wear and tear over time, then choose a durable fibre such as polyester which is also the easiest fabric to keep clean.

of feet ... you can choose wooden or metal feet from our large selection.

5. PRICE ... sofas vary in price depending on the size and fabrics you choose. Everyone knows you get what you pay for so investing in a quality custom made sofa will ensure everyday comfort and longer lasting enjoyment. makeyourhouseahome have an extensive range of fabric and leather samples that are price coded to make it simpler for you to stay within your budget.
